Post a Wish!

AND/OR

Post a Gift!

Its Free!

- ◆ Everyone can wish and post items they want to give away!
- ◆ We do the matching and paperwork.
- ◆ Donors can drop off, recipients can pick up, whatever works fastest for you.
- ◆ Together we're keeping useful goods, supplies and materials **out of the waste stream!**

Join Eco-Enthusiasts
For Renewable Resources

Come by our Eco-Center to check out our exhibits, courses, lectures, and space....

Matter of Trust Eco-Center

We are located at the corner of 17th and Hoff, between Mission and Valencia streets. We are just one block away from the 16th Street Mission BART station.

Come on by to enjoy exhibits for visitors, expert demonstrations, adult evening classes, educational programs, roundtable discussions, Earth Day planning sessions, school field trips, birthday parties and other community-building events.

Our mission is to balance abundance with needs.

We identify and develop solutions for sorting waste into useful stockpiles and redistribute, reuse, and repurpose **manmade surplus** within communities. We do research and highlight innovations and experts on **renewable resources**, mobilize public support and promote advances with enthusiasm. We produce and deliver local and online **eco-educational** programming in collaboration with partners and we celebrate green career paths.

Birthday Parties

Come celebrate your child's special day in a space of inspiration and fun! We offer a memorable two-hour experience for up to 15 children, including eco-conscious decorations, supplies for an Earth-friendly and engaging project-based activity led by our staff, and compostable tableware for serving your refreshments. Party guests will also have access to our hands-on, educational exhibits.

Field Trips & After-School Programs

The LEAF (Leadership, Ecology, Action, and Fellowship) Program inspires kids to tackle environmental challenges head-on, engage firsthand with ecological systems and supports their growth as compassionate, collaborative student leaders. We also offer free field trips to Bay Area schools, day care centers, youth-based organizations, and homeschoolers. We offer a curriculum with engaging, hands-on activities that promote environmentally conscientious solutions.

Gift Shop

We provide high quality goods made by people dedicated to sustainability. We give our seal of approval to products based on four important eco-principles: Sourcing and materials, production method, supply chain, health and harmony. Your purchases support our nonprofit Eco-Center and contribute to a healthier, more sustainable world.

Come in to see all of this and much more...
