

Your animal's trim helps to keep waterways clean!

We accept fleece clippings

We recycle fibers (clippings from salons, pet groomers, ranchers) that are felted into mats which soak up oil spills. Remember, you shampoo because hair collects oil!

Donors, please keep these boxes 100% debris-free!

Our partners, staff and volunteers thank you. No contamination such as: poop, rocks, sticks, hard seeds, rubber bands, pins, clips, paper, foil, food, etc.

If possible, shear/brush on a clean surface. Separate primary cuts from secondary cuts/neck and leg fiber. Unwashed fiber is ok.

We ask this for safety reasons, because litter can dangerously break the machines' needles.

Thank you for your consideration and your animals' contribution to green jobs and clean water.

Please contact us if you would like to donate any fleece.

RECYCLING ALERT COVID-19!

Please save or send us clippings of hair (3 in - 10cm or longer), any pet fur, alpaca fleece.... (all pure - no debris)

We are currently accepting these fibers for oil spills. Please contact us for special mailing addresses during COVID-19.
