

# Your llama and alpacas' fiber helps to keep our waterways clean!

## We accept camelid fibers

Shorn and brushed fiber from alpacas and llamas are felted into mats that soak up oil spills.

### Donors, please keep these boxes 100% debris-free!

Our partners, staff and volunteers thank you. No contamination such as: poop, rocks, sticks, hard seeds, food, insects, toenail clippings etc.

If possible, shear/brush on a clean surface. Separate primary cuts from secondary cuts/neck, belly, and leg fiber. Unwashed fiber is ok.

We ask this for safety reasons, because litter can dangerously break the machines' needles.

Thank you for your consideration and your camelids' contribution to green jobs and clean water.

Please contact us if you would like to donate any fiber.

## RECYCLING ALERT COVID-19!

Please save or send us your fiber (alpaca and llama) including any seconds piling up in your barn.

We are currently accepting these donations during COVID-19.
