

EVER HAVE OIL SPILLS OR LEAKS ?

SCHEDULE A ZOOM!

TEAM@MATTEROFTRUST.ORG

You shampoo because hair collects oil!

Do your neighborhood streets, vehicles or factories ever have oil spills?

Support our nonprofit's green jobs initiative that helps remediate soils and keep waterways clean.

We collect local, natural, waste fibers (hair and fur clippings from salons and pet groomers) then felt them into mats.

The U.S. Air Force, Army Corps of Engineers, UCB and University of Technology, Sydney, Australia have tested these materials and found them to be extremely efficient and ecological.

Please contact us if you would like to order hair mats, or hair mulch. Be a pilot study in your area today!
